

Student Screensaver Artwork Submission Guidelines

Please follow all guidelines carefully. When your artwork is ready to send, please email it to Juanita Dickson at juanita.dickson@maine.gov.

Submitted artworks may be:

- Photography
- Scanned works
- Digital art
- Photographs of artwork (2 or 3 dimensional). If submitting photographed artwork, please read the guidelines we've provided below.
- Due to the paperwork involved with identifiable human faces we will not allow any piece which will require model release forms. This means no photographs of recognizable human faces, please.
- One submission per student

Submissions must be:

- Emailed with the proper information – we will contact the teacher who in turn will let you know if you were selected.
 - Student name, grade, school
 - Title of Artwork
 - Teacher name and email
- Artwork must be:
 - Landscape orientation
 - Digital format 2048x1536 pixels
 - Without images of people (which would require a model release)

Helpful Hints:

- Scan all 2D work (other than actual photographs)
 - Ensure your scanned document is the proper size (2048x1536 pixels at 72 ppi).
 - If a scanner isn't available and a photograph is being made of a 2D piece, make sure the photograph isn't blurry by placing the camera on a solid surface (or holding it steadily), and avoiding using camera flash to illuminate the picture.
- Photograph 3D pieces
 - Be sure the photograph is sharp and evenly lit.
 - Use a very light, neutral background
 - Do your best to focus on the object clearly.

Submission checklist:

- Is your artwork sized properly?
- Are you sending all the proper contact information in your email?
- Make sure you pick your favorite to submit! Only one submission per student.

The artwork must be received by 5:00pm on December 20, 2013 to be considered for the 2014 – 2015 MLTI Screensaver Challenge.

Please email all artwork to Juanita Dickson at juanita.dickson@maine.gov
